**Dianthus barbatus
(Sweet William)**

**Dimorphotheca
sinuate
(African Daisy)**

**Eschscholzia
californica
(California Poppy)**

**Gailardia aristate
(Blanket flower)**

**Gaillardia pulchella
(Indian blanket)**

**Gypsophila elegans
(Baby's breath)**

**Linaria maroccana
(Baby snapdragon)**

**Linum perenne
lewisii (Blue Flax)**

**Lobularia maritima
(Sweet Alyssum)**

**Lotus corniculatus
(Bird's foot trefoil)**

**Oenothera
lamarckiana
(Evening primrose)**

**Papaver rhoeas
(Red poppy)**

**Penstemon strictus
(Rocky Mountain
penstemon)**

**Ratibida columnaris
(Prairie coneflower)**

**Rudbeckia gloriosa
(Gloriosa daisy)**

**Rudbeckia hirta
(Black-eyed Susan)**

**Silene armeria
(None-so-pretty)**

Planting Instructions

1. Soak the card in water for 30-60 minutes.
2. Whilst the card is soaking, prepare a seed tray with potting compost.
(Normal compost will be fine)
3. Level off the compost and water.
4. After soaking, place the card on the compost and gently press down but do not cover the card with compost.
5. Place the seed tray in a propagator or cover with cling film and put in a warm, sunny place such as the kitchen window sill or conservatory
6. Try not to let the card dry out. Gently spray with water if it looks like drying.
